Subject: Request to Provide a Briefing to Region X Staff and Regional Administrator McLerran on Reilly/Yocom Report

Hi Bill,

On behalf of the Bristol Bay Native Corporation (BBNC) and Trout Unlimited (TU), we would like to request the opportunity to provide a technical briefing on February 2 or 3, 2012 to staff involved with the Bristol Bay Watershed Assessment and to answer questions about the Reilly/Yocom report; Mining the Pebble Deposit: Issues of 404 compliance and unacceptable environmental impacts Our preference would be for the 2nd and then the 3rd). We propose to perform the brief in person with teleconference capabilities to include additional HQ staff that may want to participate as well as to accommodate Mr. Yocom who will be out of State and unable to attend in person. Attending on behalf of BBNC and TU would be Tiel Smith, Peter Van Tuyn, Shoren Brown and myself. Bill Reilly would also perform the actual technical briefing in combination with Tom Yocom. We anticipate one hour to perform the briefing and answer technical questions. We would then request a smaller meeting with yourself and Dennis McLerran to discuss our upcoming efforts and activities related to completion of the Watershed Assessment.

Please feel free to call me if you have any questions or comments. Have a great weekend and I look forward to hearing from you. All my best,

Wayne Nastri
